

CARBON OFFSET PROGRAM | 2025

Adamantine Spine Moving

THANK YOU

Dear Adamantine Spine Moving Team,

Thanks again for choosing to offset your company's carbon footprint with Trees, Water & People!

Your donation goes beyond fighting the climate crisis, it creates real benefits for Honduran families that still use firewood every day to cook their meals. The firewood they save creates the offset, but each stove we build creates jobs, gets smoke out of the kitchen, and creates pride and possibility for families who struggle every day to make ends meet.

Your partnership with us makes the world a better place.

Sincerely,

The TWP Team.

*Denia's Justa stove will
prevent **20 trees**
from being harvested.*

2017-2018

KEY ACHIEVEMENTS

Thanks to your generous support in 2025, through our Carbon Offset Program we:

- Built **1500** Justa Cookstoves in Honduran Households.
- Prevented **2,402** metric tons of CO₂, equivalents from entering the atmosphere.
- Improved the health of **7,500** + people.
- Prevented the harvest of **30,000** trees for wood fuel.
- Employed **39** local individuals in the stove supply chain.

“The creation of small local businesses for the construction and sale of Justa stoves continues to be a driver of employment and economic autonomy in local communities”

– AHDESA, Honduras.

ADAMANTINE SPINE MOVING CO₂ OFFSET DASHBOARD

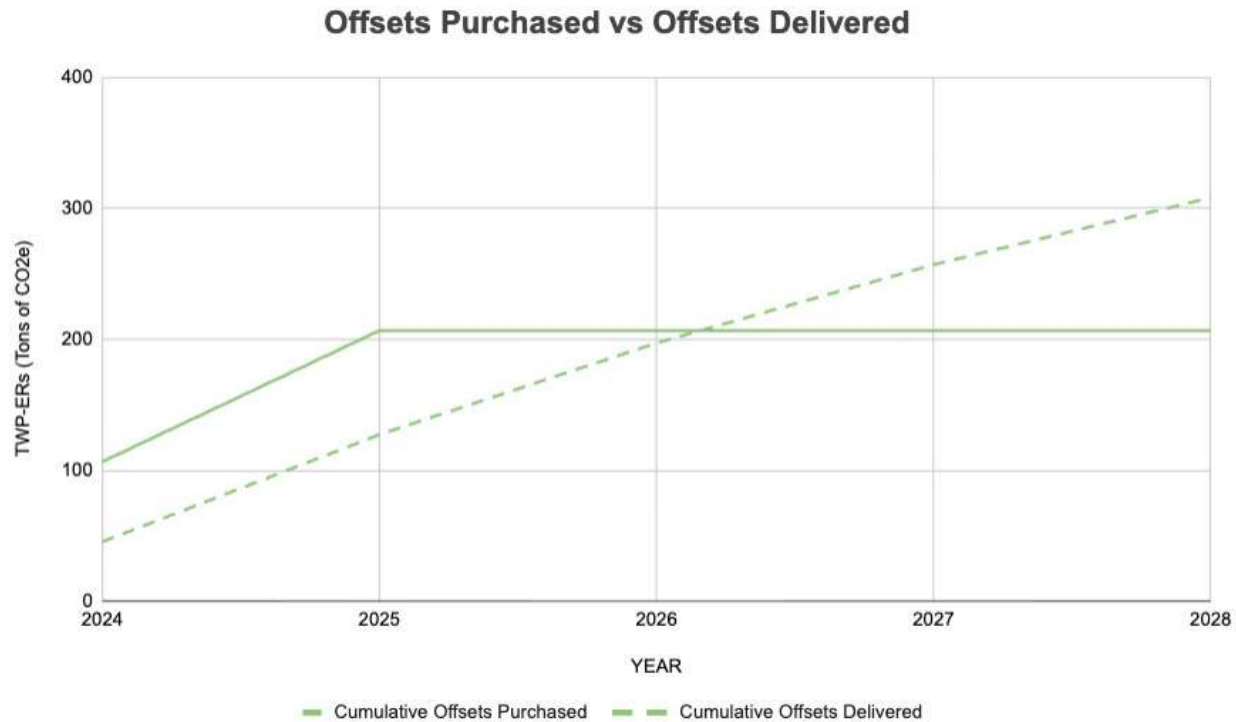

STOVES

Total Stoves Installed	35	total stoves installed from donations
Total Stoves Adopted	31	89% stove adoption rate

TOTALS

Total Offsets Funds Donated	\$3,100	donated
Total Offset Commitment	207	metric tons of CO ₂ e to be offset by TWP
Total Offsets (To- Date)	127	metric tons of CO ₂ e offset to-date

ADAMANTINE SPINE MOVING CO₂ OFFSET DASHBOARD

Emissions reductions only happen as cookstoves get used. When we receive your carbon offset donations, we put those funds to work, and track the emissions reductions generated in real time over the following five years. In this graph, you can see the performance of your carbon offset investment compounding over time, based on a set of variables that we adjust as we learn about conditions and performance on the ground.

A photograph of an elderly woman with a red headscarf and a bright orange dress, smiling warmly. She is holding two young children. One child, a boy, is wearing a yellow t-shirt with a blue jack-o'-lantern design and is smiling. The other child, a girl, is wearing a yellow and blue long-sleeved shirt and blue jeans, looking off to the side. They are in a rustic wooden house with a stone stove in the background. A black portable radio is hanging on the wall to the left.

*To date Adamantine Spine Moving
has prevented **620 trees**
from being harvested.*

SPREAD THE WORD

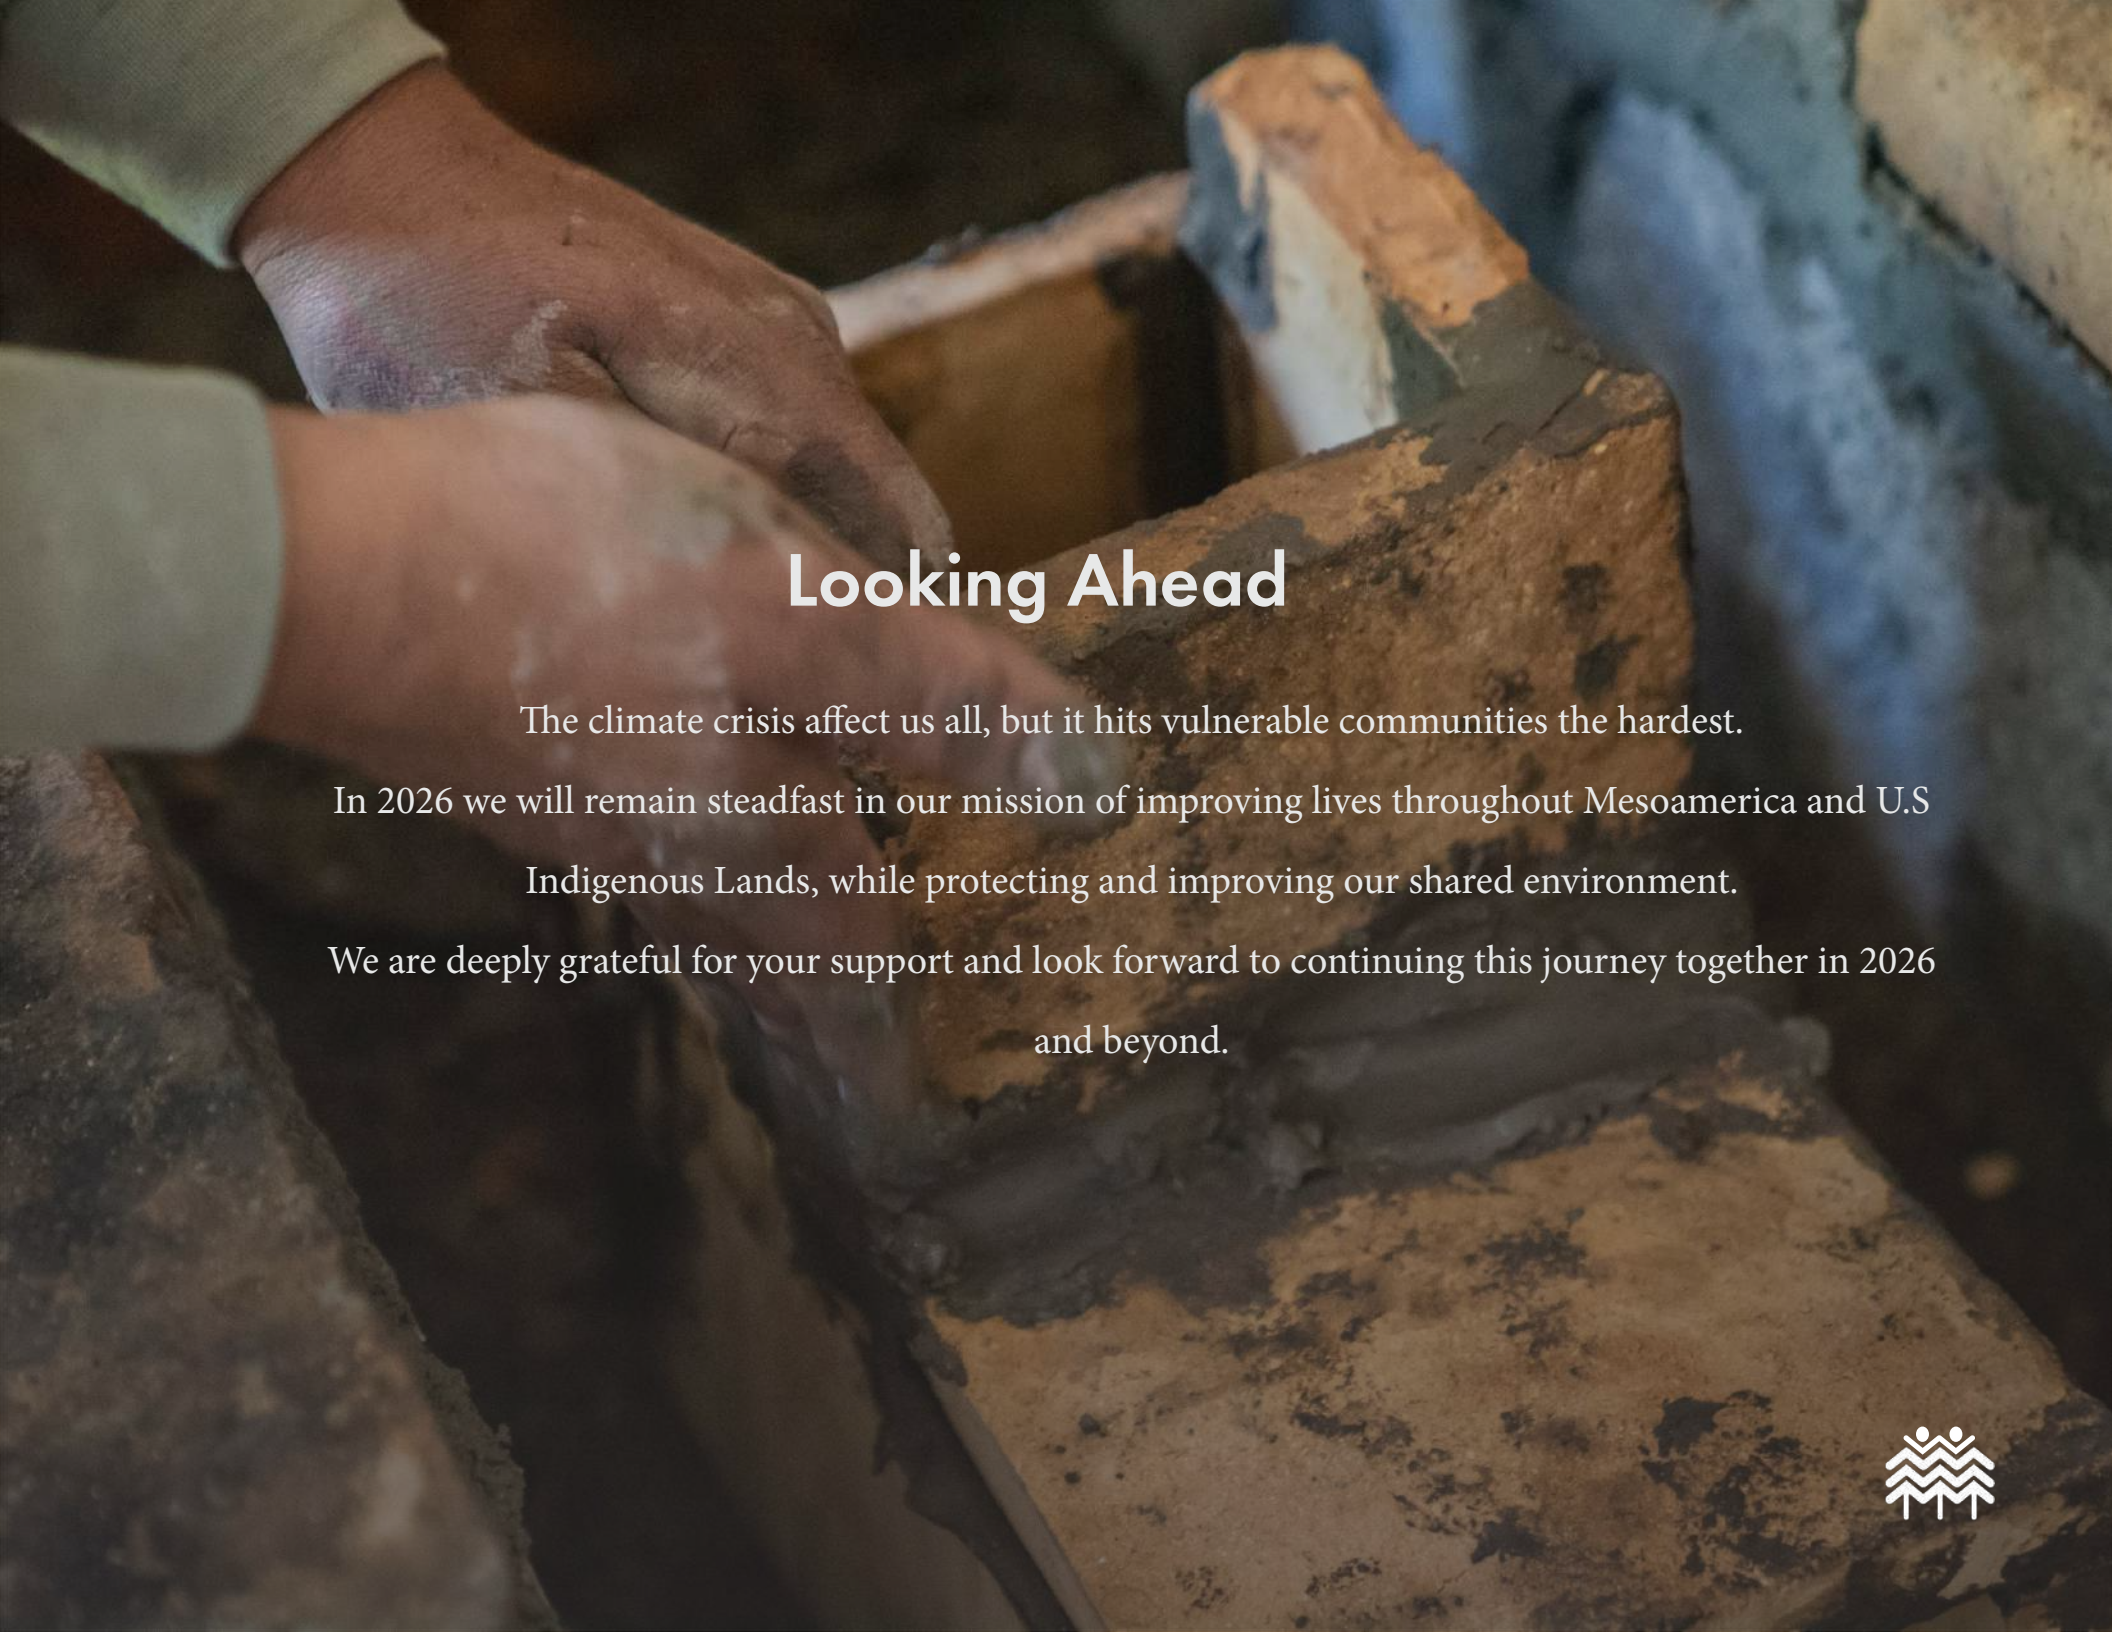

Celebrate this great achievement by telling others about the amazing results our partnership is generating! Use this sample post (edit and make it your own) for your impact report and across your social media profiles.

"Did you know nearly 20 million people in Central America still cook with firewood and breath in smoke every day?"

*By partnering with **Trees, Water & People** we are going beyond carbon offsets, we are demonstrating our commitment to people and the planet by helping reduce deforestation, create jobs and improve lives and health for Honduran women and children.*

Each Justa cookstove we help install cuts a family's need for firewood by 50–70% and lowers carbon emissions by at least 1.5 tons every year. You can learn more at twp.org/carbon-offsets "

Looking Ahead

The climate crisis affect us all, but it hits vulnerable communities the hardest.

In 2026 we will remain steadfast in our mission of improving lives throughout Mesoamerica and U.S
Indigenous Lands, while protecting and improving our shared environment.

We are deeply grateful for your support and look forward to continuing this journey together in 2026
and beyond.

Your partnership is essential in continuing this impactful work.

**If you know other companies that would benefit from being part
of this work please share this report with them.**
